

## **“GEM SETTING TUTORING” BROCHURE**

### **ITEMS TO BE TAUGHT!**

**BEZEL SETTING:**=> Complete instruction on how Round or Oval Stones should be set. Extra care shown in finishing, using an Onglette Graver #2 that is to be used as a “Bright-Cutting” finish.

**ROUND, BRILLIANT CUT:**=> Engagement rings in either a 4 or 6 claw/prong setting. Full instruction on how Triangular and Pillar files are to be used, and when. Details shown using Pumice wheels.

**CHANNEL SETTING:**=> Applications in basic channel setting. Finishing and uses of a hammer is greatly explained. Bright-Cutting and filing is shown after the stones are set.

**GYPSY/FLUSH SETTING:**=> Explanation is shown on how to with little effort these setting of stones can be achieved.

**PRINCESS STONE SETTING:**=> Intricate care is shown how these delicate stones should and must be set. Detail is fully explained on how to avoid easy breakage of these square, or rectangular stones. Finishing using a Bright-Cutting Graver #2 is also shown.

**SETTING STONES IN WAX:**=> A simpler method of setting small stones in wax in “cluster top” rings. This method is used primarily with synthetic stones, on the 8-9+ Moh's scale stones.
